PROJECTS

FaugetShop

[Fauget-Shop](#)

- Developed a feature-rich e-commerce platform using React.js, Tailwind CSS, and Redux for robust state management.
- Implemented essential functionalities such as a shopping cart, wishlist, and streamlined checkout to enhance user experience.
- Enhanced user navigation with organized product listings, subcategories, and real-time search functionality, resulting in an intuitive shopping experience.

Youtube-Clone

[Youtube-Clone](#)

- Crafted a YouTube clone leveraging React, Redux, and Tailwind CSS for an engaging video-streaming platform.
- Notable features encompass a user-friendly toggleable sidebar, real-time search with debouncing for smoother exploration, recursively nested comments for in-depth discussions, and a live chat for real-time communication.
- Employed Higher Order Components (HOC) to seamlessly integrate additional ad videos, enhancing the platform's monetization capabilities.
